

# MXP 170DFE

Type I Ambulance

## ADVANCED SAFETY AND EFFICIENCY FOR TODAY'S EMERGENCY RESPONDERS

- **Advanced Door-Forward Design:** This model features a curbside door-forward layout that allows first responders to access critical equipment while remaining seated and secured, significantly enhancing safety and efficiency during emergency responses
- **Superior Ergonomics & Workflow:** With strategically positioned entry points and equipment storage, this ambulance creates an optimized working environment that reduces congestion and improves patient care delivery
- **Industry-Leading Storage Solutions:** Featuring durable exterior compartments with dual door seals and spacious, customizable interior cabinetry to accommodate diverse service needs and equipment requirements
- **Innovative Climate Control:** The dual HVAC ducted diffusion system with separate hot and cold air channels ensures consistent patient comfort in any environment
- **Smart Technology Integration:** Equipped with EcoSmart features that reduce operational costs and environmental impact, plus an integrated multiplex electrical system supporting remote diagnostics and customizable programming for simplified fleet management

**INTENTIONALLY DESIGNED AND THOUGHTFULLY ENGINEERED FOR YOU.**

## VEHICLE EXTERIOR

The exterior design prioritizes durability, functionality, and operational efficiency for emergency response scenarios.

- **Door-Forward Layout:** Strategic curbside door placement at the front passenger side for improved workflow and emergency response efficiency
- **Durable Exterior Compartments:** Built to withstand harsh environments with dual door seals/gaskets standard on all compartment doors
- **Industry-Leading Exterior Storage:** Spacious exterior compartments with customizable options to meet various service needs
- **High-Visibility Flush Mount Windows:** Designed to prevent leaks, lower repair costs, and provide exceptional visibility
- **EcoSmart Technology:** Exterior features that contribute to reduced fuel consumption and environmental impact

## MXP 170DFE SPECS

Chassis	Ford F450/550   RAM 4500/5500
Drive Type	2x4 or 4x4
Overall Length*	294" to 311"
Overall Width	95"
Overall Height*	112"
Interior Headroom	72"
Wheelbase*	189" to 192"
Avg. Payload Capacity	Up to 5,500 lbs.

\*Depending on chassis selection, total height of vehicle may differ according to chassis and suspension.

## PATIENT COMPARTMENT (MODULE)

The interior design prioritizes ergonomics, workflow efficiency, and functionality to enhance patient care while keeping providers safely secured.

- **Ergonomic Door-Forward Layout:** Allows first responders to access equipment while remaining seated and secured, enhancing safety during transport
- **Spacious Interior Cabinetry:** Industry-leading storage solutions with customizable options to meet specific service needs
- **Optimized Workstations:** Additional space for cabinets and workstations with improved access to equipment while staying seated
- **Integrated Multiplex Electrical System:** Highly reliable electrical infrastructure with customizable programming and remote diagnostic capabilities
- **Enhanced Space Efficiency:** Strategic interior layout that reduces congestion near the entrance and facilitates smoother operations during emergency care

## THE DEMERS DIFFERENCE

Never compromise. It's our commitment to uphold unmatched industry standards for quality and safety. Innovative designs, strong modules, and rigorous testing. Our ambulances are expertly crafted and designed for efficiency, aiming to provide the lowest total cost of ownership in the industry. So much rides on our reputation. But what matters most, and always has since 1960, is the safety of those who ride within.
