STANDARD ON EVERY VEHICLE

FastPLEX is fully programmable and multiplexed with advanced features such as full color touch screen control interface, integrated incident timers with audible alerts and complete monitoring capabilities for system wide control. FastPLEX monitors ALL FastLane added components meaning that you will no longer have to ensure that the truck is plugged in or remove the radios from the portable chargers before parking it. FastPLEX will monitor all loads and shutdown any item before the vehicle's battery system reaches critically low levels. Thus extending charging systems and battery life ensuring the vehicle is always "ready for service".

FEATURE	DETAILS
Chassis	SUV or Pick-up Platforms
Lighting	All Major Brands Offered
Electrical Controls	FastPLEX Multiplexed, Standard
Console & Cabinet	Fully Custom with 3D Rendering
Graphics	Standard, Reflective, Gold, etc.

Tower Light and Motorized Awning

FastLane offers many optional upgrades such as automatic tower lights to light up the scene, motorized awnings that automatically retract in high wind conditions to provide protection from the elements, and more. All items are integrated and can be controlled from one central location (or multiple locations) inside or outside the vehicle. Let FastLane outfit your next crime scene unit.

Fully Custom Rear Conversion and Cabinetry

Fully custom and built to suit your needs, FastLane offers robust interior conversion services including full 3-D CAD renderings and design, many finish options such as HD sheet vinyl flooring with cargo tie down e-track, custom storage cabinets, roof top or undermount HVAC systems, generator systems and much more.

Solid Surface Counter Tops with Cold Storage

Solid surface countertops are just one of the many high value options available for the interior conversion of your next crime scene unit. Many other features include refrigerated and secured evidence lock up for preserving evidence, advance imaging systems for on-scene evaluation of collection efforts
