# STANDARD ON EVERY VEHICLE

FastPLEX is fully programmable and multiplexed with advanced features such as full color touch screen control interface, integrated incident timers with audible alerts and complete monitoring capabilities for system wide control. FastPLEX monitors ALL FastLane added components meaning that you will no longer have to ensure that the truck is plugged in or remove the radios from the portable chargers before parking it. FastPLEX will monitor all loads and shutdown any item before the vehicle's battery system reaches critically low levels. Thus extending charging systems and battery life ensuring the vehicle is always "ready for service".

FEATURE	DETAILS
Chassis	SUV or Pick-up Platforms
Lighting	All Major Brands Offered
Electrical Controls	FastPLEX Multiplexed, Standard
Console & Cabinet	Fully Custom with 3D Rendering
Graphics	Standard, Reflective, Gold, etc.
Interior Lighting	Integrated LED cabinet lighting

## Custom Floor & Overhead Consoles

Custom contoured floor consoles and OEM style overhead consoles feature FastLane exclusive PolyBuild™ coating, device specific custom cut aluminum powder coated faceplates, OEM style fuse block (located on driver side), oversized marine style cup holders, 12V HD power points with dust covers, Gamber Johnson computer docking arm and open storage pocket.

## TempLox Climate Control Storage

TempLox is a fully automated, solid-state climate controlled compartment specifically engineered for storage of medications and/or sensitive equipment. TempLox is truly set and forget. The system will automatically heat or cool the compartment based on the target temperature. TempLox will maintain the internal temperature even when the vehicle is off.

## EMS Storage Solutions

Featuring the same PolyBuild™ coating as the front console, this cabinet was purposed built for the customer. Additional features include a temperature controlled medications storage compartment, integrated-recessed LED lighting, HD gear trays (on 300# slides), a sundry drawer (on 150# slides) and a fully adjustable shelf (on 1/2" UniStrut).
