THE PROVEN EMS INTEGRATION PLATFORM

emsCharts Gold is the result of a collaborative effort between Golden Hour and emsCharts. We took the best of both products and combined them into emsCharts Gold. We also added many new features, enhanced functionality, responsive design, and a new graphical interface to create the premier ePCR platform. emsCharts Gold is comprised of the modules shown, all of which can be purchased separately. emsCharts Gold is designed to allow you to focus on what matters most: **Patient Care**.
