

Najo® Backboards

Najo Backboards provide medics and rescue personnel with the versatility to respond to any situation.

Made from a unique blend of advanced plastics and foams, Najo boards are strong yet lightweight and meet OSHA recommendations. The one-piece, HDPE construction is impervious to all bodily fluids, easy to decontaminate, and 100% radiolucent. Najo boards are buoyant and can float a patient in water.

- **Guaranteed for life under normal usage** (except for the Najo Lite Board, which comes with a two-year warranty)
- **Angled edges** allow for smooth log-rolls
- **100% Radiolucent**
- **Meet OSHA recommendations**

The Najo **Lite Board** is the lightest Najo backboard at just 14.5 lb

The Najo **RediHold** features two handles at tapered end to allow for more stable transport

The Najo **RediWide** has an 18-inch width that facilitates patient rescues that require "more backboard"
