

FastLane ***EMERGENCY VEHICLES***

CUSTOM VEHICLE SOLUTIONS FOR FIRST RESPONDERS

COMMAND & RESPONSE | SPECIAL OPS UNITS | WILDLAND FIRE | MARC UNITS

company OVERVIEW

FastLane Emergency Vehicles is a wholly owned brand of Autocraft Group Inc., a Virginia corporation. In operation since 1995 and fully incorporated in 1997, FastLane Emergency Vehicles was founded by corporate president, Robert W. Ritchie (Firefighter-Paramedic) for the sole purpose of manufacturing custom, specialty response and command vehicles for the public safety markets.

FASTLANE IS THE PREMIER MANUFACTURER OF QUALITY FIRST RESPONSE UNITS.

- ▶ Extensive **in-house fabrication** capabilities. This allows us to custom tailor any vehicle to satisfy a customer's specific needs.
- ▶ Utilizing the **latest technologies & automated processes** in the industry.
- ▶ We **listen to our customers**. If you have an idea, we'll make it happen.
- ▶ We ensure **zero deviation from design**, better repeatability, a cleaner fit and finish, quicker turn-around for parts, and ultimately a

higher quality product.

- ▶ No other manufacturer **of this class** of vehicle takes our level of care to construct their units.
- ▶ Backed by a **robust service department** working 24/7 to provide support both remotely, and in the field.
- ▶ Whether an individual truck or an entire fleet, rest assured a FastLane will provide **years of unparalleled service**.

incident **COMMAND**

Today the command vehicle is just as important to a successful fire ground operation as the fire truck itself. FastLane specializes in custom solutions for any vehicle type, whether it be a traditional SUV or a more versatile pick-up. Every design is fully customized to meet your department's command workflow. FastLane offers traditional command boards as well as computer-based touchscreen command solutions. Every FastLane vehicle is self-monitoring and automated, allowing you to focus on your job and not on the vehicle.

**FULL
TURN-KEY**

- ▶ Custom Cabinetry
- ▶ Latest LED Lighting
- ▶ Quality Graphics
- ▶ Custom Consoles
- ▶ CANBUS Controls
- ▶ Custom Paint
- ▶ WiFi Hotspots

FASTLANE ONLY BUILDS CUSTOM SOLUTIONS, RESULTING IN A VEHICLE THAT FITS YOUR DEPARTMENT'S NEEDS.

ems **RESPONSE**

Whether your need is for an EMS supervisor vehicle or a paramedic response unit, FastLane has the experts on staff to ensure the right design for your fleet. Highly specialized, 3-D parametric solid

modeling CAD software allows FastLane to design your entire unit virtually, offering the industry's only true custom integration. Every bag, device and piece of equipment vital to your job will be designed into a custom storage solution ensuring that you will have everything you need, close at hand.

- ▶ Solid Body Design
- ▶ Aluminum Construction
- ▶ Lightweight Body
- ▶ Modular Layout
- ▶ Custom Compartmentation
- ▶ Remountable
- ▶ 10 Year/100,000 Mile Warranty

THE MARC BOASTS OVER 205 CU. FT. OF STORAGE AREA AND ITS MODULAR DESIGN ALLOWS FOR FULLY CUSTOM COMPARTMENT LAYOUTS.

**MARC
UNIT**

A lightweight, strong, solid-formed, welded body that is designed to fit onto a standard pick-up truck chassis, thus offering a robust alternative to standard pick-up (with cap) or SUV set-ups. The MARC boasts over 205 cu. ft.

of storage area and its modular design allows for fully custom compartment layouts. Being remountable, the MARC provides a lower total cost of ownership over traditional vehicle conversions.

conversion **ALTERNATIVE**

**FASTLANE WILDLAND
FIRE UNITS BOAST
A 15-YEAR
STRUCTURAL
WARRANTY.**

FastLane Wildland Fire and Brush Units are truly an engineered vehicle, not the usual backyard skid unit trucks. They feature fully-welded, stainless manifolds and waterways. Stainless steel braided hoses with machined fittings are standard (no hose clamps).

Choose from a variety of multiple pump, tank, and foam options.

Every unit is a custom design featuring innovative tool storage and features, unique to your department's need. The bodies and compartments are all aluminum, meaning no steel tubing or sub-structure to rust.

**FULLY
ENGINEERED**

wildland **FIRE**

- ▶ Stainless Steel Manifold
- ▶ Fully Braided Hoses
- ▶ OEM Fittings (No Hose Clamps)
- ▶ All Aluminum Bodies

Special operations units have become standard for many department fleets. FastLane builds many types of special operations units for the industry, including SWAT Jump-Out Trucks, Surveillance Units, Crime Scene/

Evidence-Collection Units, EOD Units and Swift Water Rescue Units.

Offering a wide variety of platforms (Ford Transit, Sprinter, RAM Promaster, Step Vans, SUVs), FastLane will take

your design from a full 3-D CAD concept to a vehicle that will provide countless years of service for your department. Trust FastLane for your next special operations unit.

FASTPLEX

As part of its full turn-key vehicle conversion services, FastLane offers some of the most innovative features in the industry. Whether it's an overhead control console, state of the art touchscreen based command software, fully contoured and fitted floor console, or Templox™ climate controlled medications storage, FastLane

continuously innovates to answer our customer's needs.

Evolved from FastLane's 15+ year CommandNET™ system, FastPLEX™ is a fully programmable, multiplexed, Controller Area Network (CAN) based electrical control and distribution system. Giving you the same features, capabilities and

control as you enjoy in your ambulance or fire truck; FastPLEX™ provides seamless integration to the vehicle's own network allowing for a cleaner installation and longer life.

Best of all, FastPLEX™ is standard on every FastLane!

Note: Alternative electricals systems available.

**OVER
25 YEARS
IN BUSINESS**

FastLane Emergency Vehicles develops and builds the highest quality, specialty first response vehicles on the market.

In today's unpredictable times, FastLane delivers well-engineered, rugged vehicles that will withstand the most extreme day-to-day use. In fact, FastLane builds first response vehicles exclusively, enabling our staff to focus solely on this important market and provide the highest level of expertise, quality and return on your investment.

At FastLane you will work with one of our many experts to ensure the design and construction of a custom response vehicle specific to your department's needs and budget. Whether your job is securing the homeland, protecting the community or enforcing the law, FastLane can develop the vehicle that is right for you. If you can imagine it, we can build it.
