

# ONEDOSE® KNOWLEDGE MANAGEMENT

TRANSFORM **YOUR** KNOWLEDGE INTO AN INTELLIGENCE SYSTEM

## AI Assistant Integrated Into Every Knowledge Space

Knowledge becomes interactive, providers can instantly query protocols, SOP's, user manuals, policies and more.

*"What is the quarantine area for a chlorine spill"*

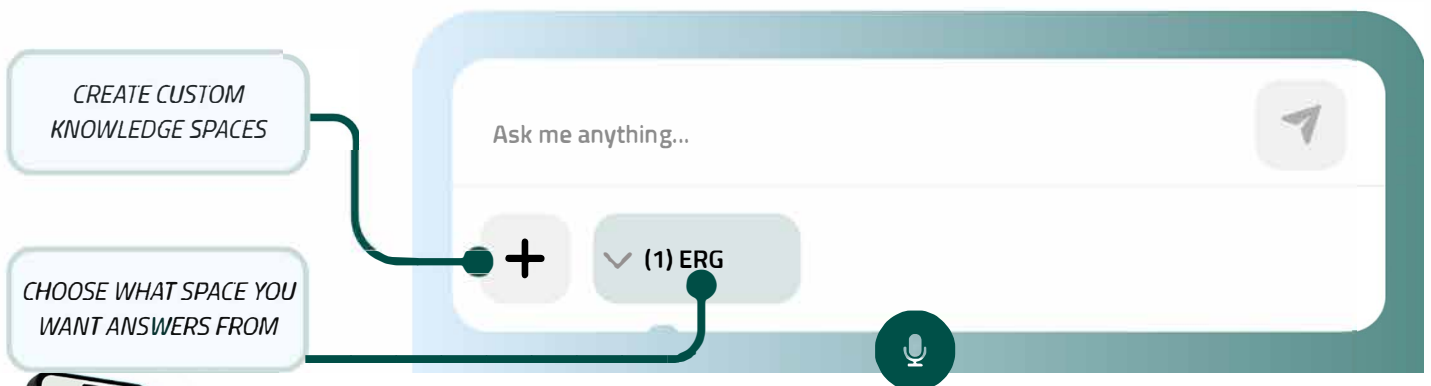

*"How do I troubleshoot my monitor if it wont turn on"*

*"What is my list for a residential construction project?"*

*"As an EMT am I allowed to start a PICC line?"*

## Administrative Control & Governance

Through the OneDose Admin Console agencies control documents, version history, role-based access and real-time updates to information.

OneDose is the patient-care platform designed to streamline emergency care from dispatch to hospital handoff. Combining protocol management, clinical support, and a novel stretcher scale, the platform enhances patient care through precision dosing, consistent treatment, and simplified protocol adherence—empowering providers and administrators to deliver safer, smarter, and more efficient care when seconds matter most.
