PHASE
Patient Handling and Safety Experts

HELPING EMERGENCY CARE PROVIDERS MOVE PATIENTS OF ANY SIZE **SAFELY** AND **EASILY**

PATIENT HANDLING IS THE LEADING CAUSE OF INJURY TO EMERGENCY CARE PROVIDERS

Due to the nationwide EMS labor shortage, preventing the leading causes of injury and retaining valuable personnel is more crucial than ever.

The **Binder Transfer** seamlessly integrates with Stryker and Ferno stretchers, eliminating cumbersome extra steps needed with traditional transfer aids.

The **Binder Lift** has been scientifically validated to alleviate musculoskeletal strain experienced by caregivers while performing lift assists in the prehospital environment.
